

At Our Recipe for Unity, we believe that if we...

Learn

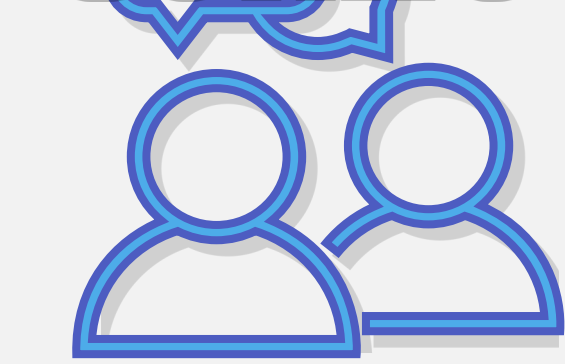

...about the lives and stories of those who live in this country...

Eat

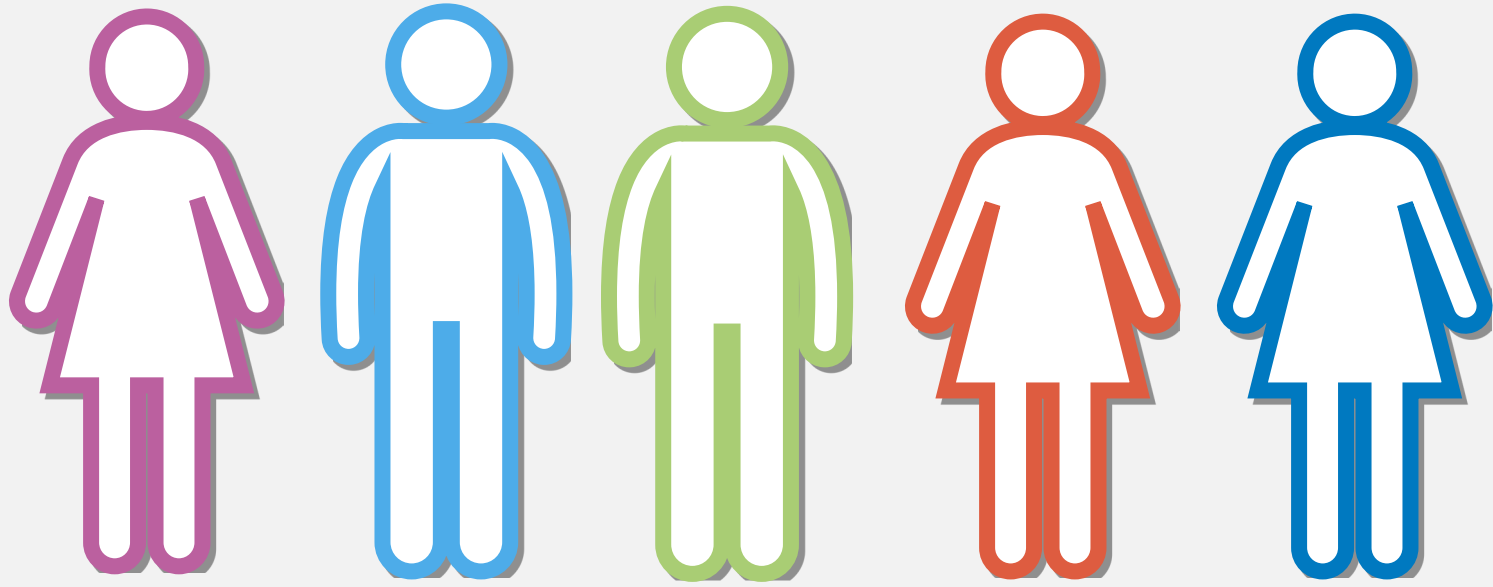

...around the table together...

Connect

...with the people around you...

...we can use food, one of humanity's universal languages, to increase understanding about those who have been "othered"...

...dispelling ignorance and fear, and thereby encouraging civil discourse about issues that matter in our country...

...and fostering *harmony* and *unity* in the United States
